

Year 5 Home Learning – Geography Bundle

If you are not in school, please start with lesson 1 and work your way through the lessons. If the lessons are short, you can complete more than one. Our expectation is that you spend an hour a day on your work in this subject.

Local Fieldwork

Lesson Title Record this in your book with today's date	Overview	Link to Lesson
Lesson 1 – Why do geographers do fieldwork?	In this lesson we will be learning about why geographers do fieldwork. We will begin by learning what fieldwork is and then explore why geographers do fieldwork. Finally we will learn about the different types of fieldwork that geographers do.	Click here to go to the lesson
Lesson 2 – What enquiries are geographers currently doing?	In this lesson we will be learning about a fieldwork study currently being completed by social geographer Esther Hitchen. We will begin by learning about the purpose of Esther's research and then explore what fieldwork tools Esther used to collect her data.	Click here to go to the lesson
Lesson 3 – Tools of fieldwork: Maps	In this lesson we will be learning about maps. We will begin by learning about different types of maps and their purposes. Finally we will learn how to use four and six figure grid references to find locations on a map.	Click here to go to the lesson
Lesson 4 – Fieldwork: can I create a sketch map of roads in my community?	In this lesson we will be learning about how to create sketch maps. We will begin by learning what a sketch map is and then look at the key steps to creating a sketch map. Finally you will use these steps to create a sketch map of the roads in your community. Hamstel at Home

Lesson 5 – Tools of fieldwork: Surveys and questionnaires	In this lesson we will be learning about surveys and questionnaires. We will begin by learning about surveys and how they can be used in fieldwork studies. Finally, we will explore questionnaires and how questions can be used to obtain a wide range of data.	Click here to go to the lesson
Lesson 6 – Fieldwork: can I create a field sketch of my community?	In this lesson we will be learning about field sketches. We will begin by learning about what field sketches are and how they can be used. Finally you will practise producing your own field sketch of your local community.	Click here to go to the lesson
Lesson 7 – How do geographers develop an enquiry question?	In this lesson we will be learning about how geographers develop an enquiry question. We will begin by looking at the processes used to identify a question. Finally, we will use this process to identify a question that you will use for your own fieldwork study.	Click here to go to the lesson
Lesson 8 – Fieldwork: Can I collect data about road use in my community?	In this lesson we will be learning about how to collect data about road use in your community. We will begin by learning how to safely collect fieldwork data. Finally, we will look at how you can collect data about road use from home or locally.	Click here to go to the lesson
Lesson 9 – How do geographers present their data?	In this lesson we will be learning about how geographers present their data. We will begin by learning about why data presentation is important and then look at how your data could be presented. Finally, you will use what you have learnt to present the data from your fieldwork study.	Click here to go to the lesson
Lesson 10 – What do geographers do with their data?	In this lesson we will be learning about what geographers do with their data. We will begin by drafting an analysis and conclusion of your fieldwork. Finally, we will review as to whether the enquiry question has been answered.	Click here to go to the lesson
